We operate a 24-hour services

UPDATE AT WAIKATO EQUINE VETERINARY CENTRE

As we head into the busy season, we wanted to provide our clients with a brief update on our services that we offer, our staff availability and the geographic area we service.

Our Services

Racing - We offer state-of-the art medical and surgical diagnostics. In addition, experienced clinical appraisals to produce the information needed in making day to day common sense approaches to the issues that arise in training young horses

Sport Horses - Whether it's eventing, endurance, polo, hunting, driving, hacking or pleasure riding (to name just a few), we adopt a holistic, intensive and scientific approach to maintaining optimal performance for each discipline

Reproduction/Breeding - We offer reproductive management of broodmares on farm as well as in the purpose-built mare facilities at our clinic. Our highly experienced and qualified veterinarian's target is an early, healthy foal per mare, per year, and we use the latest research and technologies to achieve this.

Sales Prep - Whether you are embarking on investing in bloodstock for the first time or are an experienced agent, our team of highly experienced veterinarians will help you to avoid potential future problems or needlessly missing out on a good horse because of a minor issue

Pre-Purchases - We offer Pre-purchase examinations that are designed to provide information on the health and soundness of a horse that you are looking to buy

State of the Art Equine Hospital - We offer comprehensive preventative and remedial dental treatments designed to increase the longevity of your animal's teeth, maximise comfort and reduce the risk of major problems

Equine Dentistry Services - The new equine hospital at WEVC's site in Cambridge and its large theatre and twin recovery suites, ensures that WEVC offers a 'state of the art' and highly efficient surgical service.

Neonatal Intensive Care Unit - A purpose-built mare and foal intensive care unit is available, that has a safe, separate area for compromised foals

Our staff & Availability

Our team has unrivalled experience and expertise in caring for a large variety of equine athletes, making us your best choice in dealing with the various issues that may be experienced by your horse.

We have 10 highly qualified veterinarians, 7 nurses and 6 administration staff, who are all dedicated in delivering exceptional care and services to all our customers and patients.

We service the wider Waikato Region and as far as Auckland, Taupo and Taranaki, just to name a few.

We provide an on-call vet for all after hour **EMERGENCY** call outs (e.g. colic, foaling, broken leg), and we have additional processes in place where the on-call vet will receive assistance in cases where there are multiple emergencies.

DEDICATED TO EXCELLENCE IN EQUINE PERFORMANCE
